PASSING UP GOOD BET

United States Not Exploiting Her Goods in Great Market of South America —Papers Are Misrepresenting.

Today the Democrat-Forum presents the second of the series of letters from Buenos Aires, from the facile pen of James B. Duncan:

The rapid and amazing growth of this wonderful mart has rendered it almost impossible for compilers of encyclopedias, etc., to keep up with it, and therefore, it is necessary, in order to be absolutely accurate in every statement and detail, to take much time in hunting sources of reliable information, such as consular reports, city archives, and other sources.

The report of the property registration department for the year 1911, shows that 28,097 house and landed properties have changed hands, representing a value of $526,241,863 in gold. The increase compared with 1910 was $31,881,162.

The exports of wine for 1911 were 85,820,543 gallons. Exports of cattle for 1911 brought $151,548,356. Threshing machines to the number of 6,312 worked in Argentina in 1911, threshing out 4,811,722 tons of wheat. Value of agricultural tools and machinery imported from 1895 to 1910, $92,000,000 in gold.

Here is the last census of live stock taken for Argentina Republic:

Horned cattle	29,116,625
Sheep	67,211,758
Horses	7,531,376
Mules	465,037
Swine	1,403,591
Goats	2,945,086

These few items, hastily given, will enable one to form an inkling, at least, of what is bound to develop here later, especially when one stops to consider that millions of acres in the republic remain yet undisturbed by the hand of man and untenanted by stock of any description. The present day finds all these elements of natural growth uniting to form a future of almost unlimited possibilities, and should Argentina be free in the years to come from internal or external strife, this, combined with careful and honest administration by its rulers, must cause the country to become eventually what it is today, potentially one of the wealthiest nations of the world.

The wonderful and rapidly increasing volume of shipping to and from this port is attracting the serious attention of the powers, and the substantial and steady growth and flattering possibilities of future development is the best evidence that some big country is coming after this business.

The story of the creation of the present port of Buenos Aires is one of the modern romances of the shipping world. Spain refused for two and one-half centuries after the birth of the city to permit Argentina to engage in commerce with other countries, and, therefore, the germ of what was to be the future port of Buenos Aires practically did not have its beginning until the year 1735. Today Buenos Aires docks have a capacity for handling 20,000,000 tons per annum, with six miles of dock wharfage, and ranks eighth in the world in the value of its foreign commerce.

Its importations and exportations amounted in 1911 to the enormous sum of $527,278,578 in gold, and in this respect it is second only to our own New York in the western hemisphere. Is it any wonder that the great powers over the sea, especially Germany and Great Britain, are bending every energy in the fascinating and profitable pursuit of South American riches? Standard Oil and International Harvester people are here and a few other leading United States enterprises, but at present it looks (in the homely language of the sport) as if North America is "passing up a good bet."

It is a fact, and is recognized wherever civilization extends, that the United States is a country of unlimited credit and vast wealth. Why should we not have the greatest merchant marine the world ever knew on these great highways of commerce?

The Argentinians are not naturally a sea-faring people. The great wealth with which nature has endowed the soil of the republic, combined with freedom from risk of life involved in extracting it therefrom, tends to make the people averse to seeking a livelihood which can be only wrung from the sea, by accepting the danger with the gains; consequently, the riches of the coast on Rio de LaPlata waters remain today practically untouched.

England and Germany, especially England, are jealously watching each other and both are watching North America with keen eyes to see what we are going to do, and doubtless wondering how soon we are going to do it; that is, keep them from gobbling up everything down there.

Every once in a while some British newspaper indulges in a bit of sarcasm against the United States, calling attention to the fact, as they try to make it appear, that the United States government purposes to acquire advantage here through conquest of the country. As if the government of the United States had not always shown a disposition to "tote fair" with other peoples and to give value received for what it gets. It needs to be impressed upon the minds of these Argentinians that we are their best friends.

The writer, with many North Americans here, discontinued an English paper, edited by a young upstart from Cambridge, because he continually paraded this misinformation before the people as to the United States.

Did the United States ever try this conquest business here? Great Britain did two or three times to her sorrow, as usual, and if there is any place of any consequence on earth she hasn't tried, history does not name it.

I remember last June of passing a little spot just above Trenton, N. J., on the Delaware river, where one George Washington pushed across in frail skiffs between huge cakes of floating ice, with a comparative handful of half starved and almost frozen patriots (peace to their ashes), in order that our own grand and glorious country might live, and sacked the flower and bloom of the British army while the streets of Trenton ran red with rich English and American blood.

In discussing this not long since with an old and humorous Englishman on the ship, he informed me "that it was Christmas day and that Atkins bunch wuz woozy and that fellow Washington had a jolly good line on the dope." He had some more lines over at Princeton and Freehold, etc. But seriously, if you want to know how to thoroughly appreciate the flag of our country, stand in some foreign port ten thousand miles from home where you know scarcely anyone, as I did recently, and watch the Grand Old Stars and Stripes on the mast of a slowly approaching ship, and as she comes closer and closer, the sweet strains from the band are wafted over the waters,

"My country, 'tis of thee,
Sweet land of liberty,
Of thee I sang."

See if a little mist doesn't cloud your vision of the watchman as he calls from the bridge, "All's well!"

But I am digressing. Just a little more as to the language. It is not the same exactly as that of Spain. The academic citizen might call it corrupt, but a less biased critic would probably say that it is a freer, broader, more expressive, less inflated and less stilted language. Just as the civilization of the leading Spanish republics is in many respects much more advanced than that of the mother country, so is their language. In Spain, the language, like the people, has stood still. In South America it has grown and developed to meet the needs of a mixed and more progressive race. It has been enriched (only a purist would say corrupted) by words and phrases freely adopted from Italian, French and English.

In conclusion, I have tried to give as well as my limited time would permit, to those at home whom it may interest, just a little of what is going on down here. Considering the Buenos Aires of the day with its enormous foreign commerces, grand commercial and banking interests, public enterprises and civic pride, its hospitals, school system and magnificent parks, public revenues, squares, libraries and great university, and the life to be found within its borders, material, intellectual and spiritual, the fortunate resident with property is justified in saying that he has found his home in "no mean city;" and when the republic of which it is the capital embarks upon the history of past centuries, in order to render to the world an account of the use it has made of its sovereignty, why should not the name of the United States of North America figure in its pages as that of the chief factor in its progress.—JAMES B. DUNCAN.

COURT TO APPOINT

HIGHWAY COMMISSION WILL BE NAMED NEXT WEEK.

TWO TOWNS WANT ROAD

Parnell and Ravenwood Have Committees at Work and Will Put Their Roads in Good Condition.

At a meeting of the county court next week a county highway commission will probably be appointed to comply with the good roads law enacted by the recent legislature. The county highway engineer, John Clary, will be an ex-officio member of the commission.

The commission will designate the county seat highways from this county to other neighboring counties. The law provides that $15 a mile per year may be spent from the state fund for dragging the county seat roads. The money to be used will come from the good roads fund that is accumulating from automobile licenses.

The condition of the roads will govern largely in the selection of these highways to receive this state aid. Culverts and bridges should be in repair and roads properly graded. It will be well worth while to be located on a county seat road and it will be well to get ready to meet all requirements if you want the road.

Parnell and Ravenwood are now after the county seat road from Maryville to Grant City. The road between those towns will be put in good condition and new cement bridges will be put in, grades and fills will be made and the drags will be used. Parnell has raised a fund of $300 and expects to raise more. The two towns are working together and the Parnell road committee is composed of A. F. Hall, W. N. Morgan and Charles C. Evans. The Ravenwood committee is composed of E. W. Bishop, J. S. Casteel and Dorris Bishop.

Other towns in the county will also make a bid for these roads. There is to be one from Maryville to Grant City, one to Albany, one to Rockport, one to Oregon, and one to Savannah.

Two sections of the law follows:

Sec. 4. The county highway board and the state highway engineer are hereby directed to select the most practical road from the county seat to the county seats of each adjoining county. The purpose being to select a system of county seat connecting roads between all county seats in the state, said roads to be known as county seat highways.

Sec. 6. It shall be the duty of said county highway board to let by contract and to have dragged said county seat highways in their county, provided that in any county where it is impossible to drag said roads, an amount equal to the cost of dragging shall be expended in the betterment of said road.

TEACHERS BEING SELECTED.

W. R. Lowry Chosen at Hopkins—O. B. Simmons for Graham and Wm. H. Allen for Parnell.

Several of the schools over the county are selecting teachers for the next year. At Hopkins, Prof. W. R. Lowry, who has been principal for the past two years, was chosen again. He will also receive a raise of $100 in salary, making $1,000 a year.

At Parnell, Prof. Wm. H. Allen of Columbia was employed as principal of the schools for the next year to succeed J. P. Cummings. The other teachers at Parnell will be selected Saturday night at a school board meeting.

O. B. Simmons is the new principal of the school at Graham. The other teachers selected at this school are Miss Margaret Collins, grammar; Miss Maud Marquis of Maryville, intermediate deparement; and Miss Stella Davis, the primary department. Mr. Simmons has been principal of the schools at Atherton, Ia., and his home is near Sheridan. Miss Marquis is also a new teacher for Graham.

SUSPENSION WILL BE BRIEF?

Thirty-five Insurance Companies Are Now Writing in This State.

A dispatch from Jefferson City says: Thirty-five fire insurance companies, including the five Missouri stock and twenty-six state mutuals, notified Insurance Superintendent Revelle that they would continue to write policies in this state. Thirty-one of the other foreign companies notified him of suspension at midnight Wednesday night. Some advised him that the suspension was only temporary, the others simply saying they had suspended.

Superintendent Revelle says that no immediate steps for cancellation of licenses will be taken by him, and perhaps none will be unless the suspension should be of unreasonable duration.

There are approximately 5,000 fire insurance agents in Missouri, and it is estimated that of this number there are 4,500 idle today, so far as the insurance business is concerned, because of the fire action of the companies. The only state is protection to be had in the companies and through the thirty-five odd inter-insurance and reciprocal mutuals associations.

Mr. Revelle is the situation and exhopeful view belief that the suspension presses the R. Just on what ground he may be brief his is not explained. SPENT LIFE HERE

MRS. N. A. KAVANAUGH LIVED IN COUNTY 68 YEARS.

DIED THURSDAY NIGHT

Aged Lady Succumbs to Injuries Received Three Years Ago in Corpus Christi, Texas.

Mrs. N. A. Kavanaugh passed away Thursday evening at 7 o'clock at the home of her daughter, Mrs. W. C. Frank, 307 East Seventh street. Mrs. Kavanaugh had been an invalid for three years and three months, but her last illness was of five weeks' duration, during which she suffered greatly.

The funeral services will be held Saturday afternoon at 2:30 o'clock and will be conducted by Rev. Claude J. Miller of the First Christian church. Interment will take place in Miriam cemetery.

The cause of Mrs. Kavanaugh's invalidism was a fall from a porch three years ago, while she was spending the winter at Corpus Christi, Texas, in company with Mr. and Mrs. W. C. Frank. Her hip was broken and she was not able to walk afterward. She was given such unremitting devotion and care by her daughters that her life was made comfortable and happy, and it was only within the last few weeks that she did not seem to take the interest in life that she formerly had and to enjoy the calls of her many friends.

Mrs. Kavanaugh was a member of one of the oldest families in Nodaway county. She was born in New Kent county, Virginia, January 26, 1837, making her past 76 years of age. Her maiden name was Serepta Saunders, daughter of James and Elizabeth Carr Saunders. When she was nine years old, Mrs. Kavanaugh's parents moved from Virginia to Nodaway county, locating on a farm five miles south of Maryville, where their children grew to manhood and womanhood, only two of whom are now living, a twin brother and sister, Stratford Saunders of Skidmore and Mrs. Susie Case of Colon, Nebraska. The other children died in Maryville several years ago and were Mrs. William Ammons, Mrs. J. M. Still, who was the mother of Mrs. Anderson Craig of this city; Mrs. William Burris, who was the mother of Mrs. Robert Gex and Will A. Burris of near Graham, and now Mrs. Kavanaugh the subject of this sketch.

In October, 1857, Mrs. Kavanaugh was married to her husband, Nicholas Archer Kavanaugh, whose death occured at their home in this city in 1906. They lived on a farm south of Maryville for several years, but the greater part of their life was spent on their farm between Graham and Maitland. Eight children were born to them, four boys and four girls. Twin sons, Paul and Eugene, died in infancy, and another son, Charles, died at the age of fifteen. The living children are Mrs. W. C. Frank of Maryville, James Kavanaugh of Graham, Mrs. F. I. Dunn of Bolckow, Mrs. J. I. Brink of Maryville and Mrs. John L. Tate of Pierre, South Dakota.

Mr. and Mrs. Kavanaugh retired from farm life twenty-two years ago and moved to Maryville to their residence on North Main street, where they lived until Mr. Kavanaugh's death in 1906, and since that time Mrs. Kavanaugh has lived with her children.

Mrs. Kavanaugh was a cousin of Mr. George S. Baker and Mrs. James H. Saunders of this city.

For fifty years Mrs. Kavanaugh had been a follower of Christ and a member of the Christian church. Her constant and cheerful practice of truths she learned through many years of joy and trial rendered her a woman of great charm to all who met her. She was kind, loving and faithful in every relation of life and she will be sadly missed, first by those of her own home, then by many friends among young and old.

Mr. Cummins to Speak.

A large number from Maryville will go to St. Joseph Sunday to attend the joint initiation of the Maryville and St. Joseph councils of Knights of Columbus. About twenty-four from here will take the degree work and they will be accompanied by a number of the members of the council of this city. After the initiation Adoux in that city and Attorney T. A. FINED $50 AND COSTS.

James Markwell Received Heavy Fine —Other Cases Up in City Police Court.

In the case of James Markwell, charged with giving whisky to Charles Bramblem, a city prisoner, and who is barred from the saloons here, Mayor Arthur Robey fined him $50 and costs. Markwell was represented by Charles McCaffrey, and the city by W. E. Wiles. It is said that Markwell will take an appeal.

Two other men up in city police court Friday morning for drunkenness were Thomas Ross and John Hays. They both pleaded guilty and were fined $20 and costs apiece.

Ross and Hays are also charged with shoplifting. Two pairs of pants, valued at $10, were taken from Corwin-Murrin clothing store, by these men, it is alleged. Their trial will come up Monday. Hays is an old offender here, having been arrested several times before.

CHANGES IN CONSERVATORY.

Miss Alice Porter of Winchester, Ky., and Miss Marie Jones, New Teachers for Music School.

Director P. O. Landon, of the Maryville Conservatory of Music, has announced a change in the faculty of the school to take effect June first. Miss Alice Porter of Winchester, Ky., will be first assistant instructor in piano, to take the place of Miss Gayle Jackson, who has held that position since the first of January. Miss Jackson has discharged her duties in a satisfactory manner, but she only came to the local school to finish out the winter term.

Miss Porter is a graduate of the New England Conservatory of Music at Boston, and has had considerable experience as an instructor of piano. The voice department of the Conservatory will again be in charge of Miss Marie A. Jones of this city. Miss Jones was formerly connected with the Conservatory, but she has been studying for the past year with Mrs. Ella Van Huff of Kansas City. Miss Sarah McMaster, who has had charge of the primary department for the past year and a half, will continue in that work.

TEACHERS ARE VISITING.

Normal Teachers Go to Columbia to Attend State Meeting—Prof. Cook to Lecture at Utica.

A number of the teachers at the Normal are out of the city over Friday and Saturday attending teachers' meetings and delivering commencement addresses. Dean George H. Colbert, Prof. E. L. Harrington and Prof. John E. Cameron left for Columbia Friday morning, where Mr. Colbert will attend a conference of the representatives of the Normal schools of the state concerning a teacher training course in the high school, and Mr. Harrington and Mr. Cameron will attend the meeting of the State Science Teachers' Association. Mr. Harrington is chairman of the science teachers' section.

Prof. T. H. Cook went to Utica Friday morning to deliver the class address to the high school graduating class of that place.

President Ira Richardson will address the graduating class of the White Cloud District at Elmo, Friday night.

GUILFORD NEWS ITEMS.

Wolves or dogs have been getting into the sheep folds of J. V. Pugh and Frank Speers for several nights and have succeeded in taking about a dozen of the best. Davis Brothers' hounds of Guilford are being used in a chase that is being conducted between Guilford and King City. Several wolves were killed in a big chase in the spring, but it is thought there are a good many left and everything will be done to drive them out.

Farmers down in the southeast corner of Washington township, which is also the southeast corner of Nodaway county, are very much interested in the revival of the proposed project of an interurban line from St. Joseph to Stanberry. If the thing goes through the same right-of-way will be used that was surveyed through that section several years ago, over some ten miles of Nodaway territory. The line would enter on the land of E. G. Stuart, pass on northeast to and leave the county at the farm of Henry Richards, then on northeast to Stanberry. This stretch of country is isolated for about ten miles from any railroad facilities, between King City and Guilford, and would be a wonderful help to the people of that section. There seems a strong possibility that the line will be built. The commerce club of St. Joseph and other St. Joseph people are interesting eastern capital in pushing the matter.

Bristol, Pa., Man Says So in This Letter.

Months of suffering an anxiety over his condition caused Mr. A. L. Kennedy of Bristol, Pa., to write this letter. He says: "Grippe and a bad cough caused me much suffering and worry for five long months, but that is all over now for I have taken Vinol and am perfectly well. I took five bottles and it was the best five dollars I ever spent."

In health one cannot realize how depressed a person may become after trying one remedy after another for such a condition as Mr. Kennedy was in, without benefit, or what a relief it is to find help and be restored to health and strength.

It is the combined action of the medicinal curative element of cods' livers without the greasy oil, aided by the blood-making and strength-creating properties of tonic iron, that makes Vinol so efficient in overcoming chronic coughs, colds and bronchitis at the same time building up the weakened run-down system.

We guarantee Vinol to give you perfect satisfaction.—Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with a guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of othine—double strength—and a few applications from your druggist will show you how easily it is to remove unsightly freckles and rid yourself of the homely freckles and get a beautiful complexion. Rarely more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

FASCINATING HAIR.

Easy to Stop Hair Falling Out, and Dandruff Also.

No one doubts that it is the duty of every woman to look as charming as possible. Every woman knows why she wants to be beautiful and attractive.

A woman with scant hair, dull and lifeless, has lost half her charm. How many times have we heard the expression "the crowning glory of a woman is her hair."

Nowadays, thanks to Parisian Sage, almost every woman can have hair so radiant and so glorious that it attracts, fascinates and compels admiration.

Parisian Sage, the scientific and ideal hair rejuvenator and tonic, will cause hair to grow. It will turn harsh, withered hair into lustrous and bewitching luxuriant hair in a few days.

It is a most delightful hair dressing that kills the dandruff germs, stops falling hair, and eradicates dandruff in two weeks, or your money back.

A large 50 cent bottle is sold by the Koch Pharmacy and dealers everywhere on the money back plan.—Advertisement.

The savings made by a DE LAVAL Cream Separator

A De Laval will save enough over any gravity setting system in quantity and quality of cream, sweet skim-milk, labor, time and trouble to pay for itself every six months.

A De Laval will save enough over any other separator in closer skimming, in running heavier and smoother cream, skimming cool milk, greater capacity, easier cleaning, easier running and fewer repairs to pay for itself every year.

An up-to-date De Laval saves enough over De Laval machines of five, ten, fifteen or twenty years ago in closer separation under all conditions, greater capacity, easier running and greater mechanical perfection to pay for itself every two years.

Remember that these are not mere claims. We are always willing to let you try out a De Laval for yourself on your own place.

PRESIDENT WILSON DONS WAR PAINT

Campaigns New Jersey to Wrest Politics From Machine Control.

Newark, N. J., May 2.—President Wilson battled hard in two speeches at Newark and Elizabeth to wrest New Jersey politics from what he termed a resumption of control by "Jim Nugent and the old political machine."

Great crowds made frequent interruptions of applause and demonstrations of approval greeted the president when he put on his "war paint," as he described it, and campaigned in earnest to have the power of drawing juries taken from the sheriffs and placed in the hands of nonpartisan commissions. He also pleaded for the calling of a constitutional convention and pointed out that it no longer was regarded as a radical procedure to change constitutions.

His two speeches were filled with satirical characterization of what he called the "old gang in New Jersey," but he made it clear that his fight for apparently a local matter was made for the rank and file of the nation.

THREE SHOT IN A FIGHT

Quarrel Over Strip of Ground Ends in Triple Tragedy.

Kirksville, Mo., May 2.—Noah Stroup was shot and killed and Everett Skinner fatally wounded by Wallace Demory, who then killed himself, at Danforth, eight miles west of here. The trouble was the result of a quarrel over a strip of ground, to which Demory and Stroup claimed ownership. Skinner was a friend of Stroup. All three were middle-aged men.

Troops Land at Guaymas.

Nogales, Ariz., May 2.—Between 1,500 and 2,000 federals were landed at Guaymas from transports. This, it is believed, insures the port from capture by the constitutionalists.

A BIT OF ADVICE.

First, Don't Delay—Second, Don't Experiment.

If you suffer from backache; headacres or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Maryville residents desire more convincing proof of their effectiveness than a statement of a Maryville citizen who has used them and willingly testifies to their worth?

Mrs. James Fisher, 804 East Fifth street, Maryville, Mo., says: "In 1911 I began using Doan's Kidney Pills, which I got at Love & Gaugh's drug store, and they gave me relief from backache and pains in my sides. I recommend this remedy and I can say that it is reliable."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

CALIFORNIA LAND BILL UP FOR FINAL ACTION

Democrats to Make Stand for National Administration.

Sacramento, Cal., May 2.—It is the understanding on all sides that the anti-alien land bill will come to a final vote in the senate today, the Democrats having been granted sufficient time to study the Webb redraft of the measure.

The brief debate on the motion to postpone disclosed the fact that the Democrats have hearkened to the advice from Washington as delivered by Secretary of State Bryan and will make a formal stand in support of the national administration.

No apprehension was aroused by the warning against the Webb bill telegraphed to Governor Johnson by President Wilson. It is the belief of both Governor Johnson and Attorney General Webb that regardless of how the act was worded it probably would involve an appeal to the courts, as suggested by President Wilson.

Alaskan Bill Vetoed.

Juneau, May 2.—Governor Walter E. Clark vetoed the anti-alien fishing bill, aimed at Japanese fishermen, just before the Alaska legislature adjourned sine die. The bill passed the house unanimously, but when the governor's message was received there was no attempt to pass it over his veto.

OFFICER SHOOTS FOOTPAD

Second Highwayman Captured After Running Fight at Omaha.

Omaha, May 2.—Two men, identified by their victims as holdup men, are in the custody of the police, one of them badly wounded in the right leg, where he was shot by Patrolman Leroy Wade, early this morning, near Twentieth and Douglas streets. One of the men is George Floth and the other is identified as Marvin DeLor, a man with a local police record and who was recently released from the Iowa penitentiary at Anamosa. DeLor is the man who was wounded.

GOLF BALLS WORSE THAN HIGHBALLS

Wilmington, Del., May 2.—Rodney Warren, a twelve-year-old caddie, who heard players at the Wilmington Country club discussing "highballs," gathered the idea that the drink was in some way connected with the golf ball. He cut open one of the balls and found it filled with a liquid, which he drank. A stomach pump saved his life. The doctor found the liquid in the ball was highly impregnated with arsenic.

More Insurance Companies to Stay.

MAN GETS A NEW STOMACH.

After Trying to Enjoy Life for Years With a No Good Stomach He Gets Wise.

"I was bothered for years with stomach trouble and gastritis. Food laid like lead in my stomach and fermented, forming gas. This caused a pressure on my heart, so that I choked and gasped for breath. I thought my time had come. MI-O-NA cured me after I had doctored without success."—Wm. V. Mathews, Bloomington, Ind.

Call it Gastritis, Catarrh of the Stomach, Indigestion or Dyspepsia; it matters not. MI-O-NA Stomach Tablets will drive out all the misery and give you practically a new, clean, willing-to-work stomach or the Orear-Henry Drug Co. will refund the price.

That's honorable, isn't it? So if you want to get rid of your sour, gassy, heavy, stupid, irresponsible stomach get a 50-cent box today.—Advertisement.

Obituary.

Harley L. Curry was born October 20, 1892, near Gaynor City, Mo., where he lived with his parents until 9 years old, when they moved to Allendale, Mo., where he grew to young manhood. He attended the Grant City high school and was graduated with the class of 1911. He was converted and united with the Methodist Episcopal church in Sheridan, Mo., in 1906, living faithfully in its fellowship until his death. He was taken with the measles in May, 1911, from which he contracted tuberculosis. In September, 1911, he went to the sanatorium at Colorado Springs, Denver and other points in the West, where he remained about a year and one-half in an effort to arrest this disease. In December, 1912, his parents moved to Fort Morgan, Colo., where they hoped he might regain his health, but all to no avail. He steadily grew worse, passing away April 24, 1913, being 20 years, 6 months and 14 days of age.

Harley was a good boy, of loving disposition, respectful and obedient to his parents, a good brother and a faithful friend. He was a Christian young man of high ideals and ambitious to be of some account in the world. He bore his affliction bravely and was of hope to the end. A few days ago he said that heaven seemed near, and he passed away in the full assurance of the Christian's hope of rest and love. He leaves father and mother, Mr. and Mrs. L. W. Curry; two sisters, Mrs. C. C. [illegible]er of Gaynor City, Mo., and Mrs. R. F. Scott of Arcadia, Neb., their families, other relatives and a host of friends to mourn their loss, to remember his love and friendship and live in the hope of meeting him again.

His only brother Charley preceded him to the heavenly home in 1899, being 17 years of age.

Funeral services were held Sunday by Reverend Smith at the M. E. church at Gaynor and interment made in the New Hope cemetery.

In memory of our dear brother:

Put the flowers in the window
So that I may see them there,
For 'tis but my form that's resting
In the grave you tend with care.
For my spirit often lingers,
In the home where now you stay,
And I visit not the graveyard,
Where there's nothing left but clay.
So I whisper, put the flowers
In the window of your room;
There I can inhale their fragrance,
As the buds in beauty bloom.
As you pick the earthly blossoms,
So I pluck them here for you—
And though yours may fade and wither
Mine retain their brilliant hue.
Then when you shall come to join me
In my home so bright and fair,
You will find the flowers blooming
And we all can tend them there.

Card of Thanks.

We take this method of expressing our heartfelt thanks for the kindness and sympathy of our friends in our sad bereavement of our son and brother Harley, and also for the beautiful flowers from Gaynor, Grant City, Mo., and Fort Morgan, Colo.

Mr. and Mrs. L. W. Curry
Mr. and Mrs. R. F. Scott
Mr. and Mrs. C. C. Cooper.

Card of Thanks.

We wish to thank our many friends and also express our sincere regards to them for their services rendered in caring for our beloved husband and father through his illness and death. We also wish to thank each and every one who gave flowers or other tokens of love and sympathy to cheer us in our bereavement. Very sincerely,

MRS. WM. McCOMB and FAMILY.

Killed an Otter.

T. F. Panye of Parnell killed an otter one day last week. The animal was taken to St. Joseph, where it will be mounted. The Parnell Sentinel had the following about Mr. Payne killing the otter:

On Wednesday night he heard his dogs barking near his place on Platte river, so he got up and went where they were and discovered they had an otter cornered. He killed the animal by kicking it in the head. This is the first otter seen in northwest Missouri for over fourteen years, and it is supposed it wandered from the north. The animal is about two-thirds grown, with fur of a dark brown and of excellent quality.

Mrs. E. C. Bollinger of Hopkins returned home Friday from a visit with Mrs. Clarence Green.

TOMATOES

Plant plenty of tomatoes, the fruit that you can depend on every year. Because we sell more tomato plants each year is one very good reason why you should plant Engelmann's tomato plants. Through actual tests and selections we furnish only varieties that are money makers to the grower under local climatic conditions. Because we raise and sell large quantities of tomato plants is why we can sell Englemann's tomato plants at 15c per dozen for strong transplanted plants, and 25c per dozen for potted plants. All vegetable plants in season.

DAILY DEMOCRAT-FORUM

Largest Circulation of any Daily Paper in any Missouri Town of 5000 Population

VOLUME 3. MARYVILLE, MISSOURI, FRIDAY, MAY 2, 1913. NO. 286.

NEXT TO NEW YORK

EXPORTS AND IMPORTS OF BUENOS AIRES ARE ENORMOUS.

PASSING UP GOOD BET

United States Not Exploiting Her Goods in Great Market of South America —Papers Are Misrepresenting.

Today the Democrat-Forum presents the second of the series of letters from Buenos Aires, from the facile pen of James B. Duncan:

The rapid and amazing growth of this wonderful mart has rendered it almost impossible for compilers of encyclopedias, etc., to keep up with it, and therefore, it is necessary, in order to be absolutely accurate in every statement and detail, to take much time in hunting sources of reliable information, such as consular reports, city archives, and other sources.

The report of the property registration department for the year 1911, shows that 28,097 house and landed properties have changed hands, representing a value of $526,241,863 in gold. The increase compared with 1910 was $31,881,162.

The exports of wine for 1911 were 85,820,543 gallons. Exports of cattle for 1911 brought $151,548,356. Threshing machines to the number of 6,312 worked in Argentina in 1911, threshing out 4,811,722 tons of wheat. Value of agricultural tools and machinery imported from 1895 to 1910, $92,000,000 in gold.

Here is the last census of live stock taken for Argentina Republic:

Horned cattle	29,116,625
Sheep	67,211,758
Horses	7,531,376
Mules	465,037
Swine	1,403,591
Goats	2,945,686

These few items, hastily given, will enable one to form an inkling, at least, of what is bound to develop here later, especially when one stops to consider that millions of acres in the republic remain yet undisturbed by the hand of man and untenanted by stock of any description. The present day finds all these elements of natural growth uniting to form a future of almost unlimited possibilities, and should Argentina be free in the years to come from internal or external strife, this, combined with careful and honest administration by its rulers, must cause the country to become eventually what it is today, potentially one of the wealthiest nations of the world.

The wonderful and rapidly increasing volume of shipping to and from this port is attracting the serious attention of the powers, and the substantial and steady growth and flattering possibilities of future development is the best evidence that some big country is coming after this business.

The story of the creation of the present port of Buenos Aires is one of the modern romances of the shipping world. Spain refused for two and one-half centuries after the birth of the city to permit Argentina to engage in commerce with other countries, and, therefore, the germ of what was to be the future port of Buenos Aires practically did not have its beginning until the year 1735. Today Buenos Aires docks have a capacity for handling 20,000,000 tons per annum, with six miles of dock wharfage, and ranks eighth in the world in the value of its foreign commerce.

Its importations and exportations amounted in 1911 to the enormous sum of $527,278,578 in gold, and in this respect it is second only to our own New York in the western hemisphere. Is it any wonder that the great powers over the sea, especially Germany and Great Britain, are bending every energy in the fascinating and profitable pursuit of South American riches? Standard Oil and International Harvester people are here and a few other leading United States enterprises, but at present it looks (in the homely language of the sport) as if North America is "passing up a good bet."

It is a fact, and is recognized wherever civilization extends, that the United States is a country of unlimited credit and vast wealth. Why should we not have the greatest merchant marine the world ever knew on these great highways of commerce?

The Argentinians are not naturally a sea-faring people. The great wealth with which nature has endowed the soil of the republic, combined with freedom from risk of life involved in extracting it therefrom, tends to make the people averse to seeking a livelihood which can be only wrung from the sea, by accepting the danger with the gains; consequently, the riches of the coast on Rio de LaPlata waters remain today practically untouched.

England and Germany, especially England, are jealously watching each other, and both are watching North America with keen eyes to see what we are going to do, and doubtless wondering how soon we are going to do it; that is, keep them from gobbling up everything down there.

Every once in a while some British newspaper indulges in a bit of sarcasm against the United States, calling attention to the fact, as they try to make it appear, that the United States government purposes to acquire advantage here through conquest of the country. As if the government of the United States had not always shown a disposition to "tote fair" with other peoples and to give value received for what it gets. It needs to be impressed upon the minds of these Argentinians that we are their best friends.

The writer, with many North Americans here, discontinued an English paper, edited by a young upstart from Cambridge, because he continually paraded this misinformation before the people as to the United States.

Did the United States ever try this conquest business here? Great Britain did two or three times to her sorrow, as usual, and if there is any place of any consequence on earth she hasn't tried, history does not name it.

I remember last June of passing a little spot just above Trenton, N. J., on the Delaware river, where one George Washington pushed across in frail skiffs between huge cakes of floating ice, with a comparative handful of half starved and almost frozen patriots (peace to their ashes), in order that our own grand and glorious country might live, and sacked the flower and bloom of the British army while the streets of Trenton ran red with rich English and American blood.

In discussing this not long since with an old and humorous Englishman on the ship, he informed me "that it was Christmas day and that Atkins bunch wuz woozy and that fellow Washington had a jolly good line on the dope." He had some more lines over at Princeton and Freehold, etc. But seriously, if you want to know how to thoroughly appreciate the flag of our country, stand in some foreign port ten thousand miles from home where you know scarcely anyone, as I did recently, and watch the Grand Old Stars and Stripes on the mast of a slowly approaching ship, and as she comes closer and closer, the sweet strains from the band are wafted over the waters,

"My country, 'tis of thee,
Sweet land of liberty,
Of thee I sang."

See if a little mist doesn't cloud your vision of the watchman as he calls from the bridge, "All's well!"

But I am digressing. Just a little more as to the language. It is not the same exactly as that of Spain. The academic citizen might call it corrupt, but a less biased critic would probably say that it is a freer, broader, more expressive, less inflated and less stilted language. Just as the civilization of the leading Spanish republics is in many respects much more advanced than that of the mother country, so is their language. In Spain, the language, like the people, has stood still. In South America it has grown and developed to meet the needs of a mixed and more progressive race. It has been enriched (only a purist would say corrupted) by words and phrases freely adopted from Italian, French and English.

In conclusion, I have tried to give as well as my limited time would permit, to those at home whom it may interest, just a little of what is going on down here. Considering the Buenos Aires of the day with its enormous foreign commerces, grand commercial and banking interests, public enterprises and civic pride, its hospitals, school system and magnificent parks, public revenues, squares, libraries and great university, and the life to be found within its borders, material, intellectual and spiritual, the fortunate resident with property is justified in saying that he has found his home in "no mean city;" and when the republic of which it is the capital embarks upon the history of past centuries, in order to render to the world an account of the use it has made of its sovereignty, why should not the name of the United States of North America figure in its pages as that of the chief factor in its progress.—JAMES B. DUNCAN.

HIGHWAY COMMISSION WILL BE NAMED NEXT WEEK.

TWO TOWNS WANT ROAD

Parnell and Ravenwood Have Committees at Work and Will Put Their Roads in Good Condition.

At a meeting of the county court next week a county highway commission will probably be appointed to comply with the good roads law enacted by the recent legislature. The county highway engineer, John Clary, will be an ex-officio member of the commission.

The commission will designate the county seat highways from this county to other neighboring counties. The law provides that $15 a mile per year may be spent from the state fund for dragging the county seat roads. The money to be used will come from the good roads fund that is accumulating from automobile licenses.

The condition of the roads will govern largely in the selection of these highways to receive this state aid. Culverts and bridges should be in repair and roads properly graded. It will be well worth while to be located on a county seat road and it will be well to get ready to meet all requirements if you want the road.

Parnell and Ravenwood are now after the county seat road from Maryville to Grant City. The road between those towns will be put in good condition and new cement bridges will be put in, grades and fills will be made and the drags will be used. Parnell has raised a fund of $300 and expects to raise more. The two towns are working together and the Parnell road committee is composed of A. F. Hall, W. N. Morgan and Charles C. Evans. The Ravenwood committee is composed of E. W. Bishop, J. S. Casteel and Dorris Bishop.

Other towns in the county will also make a bid for these roads. There is to be one from Maryville to Grant City, one to Albany, one to Rockport, one to Oregon, and one to Savannah.

Two sections of the law follows:

Sec. 4. The county highway board and the state highway engineer are hereby directed to select the most practical road from the county seat to the county seats of each adjoining county. The purpose being to select a system of county seat connecting roads between all county seats in the state, said roads to be known as county seat highways.

Sec. 6. It shall be the duty of said county highway board to let by contract and to have dragged said county seat highways in their county, provided that in any county where it is impossible to drag said roads, an amount equal to the cost of dragging shall be expended in the betterment of said road.

TEACHERS BEING SELECTED.

W. R. Lowry Chosen at Hopkins—O. B. Simmons for Graham and Wm. H. Allen for Parnell.

Several of the schools over the county are selecting teachers for the next year. At Hopkins, Prof. W. R. Lowry, who has been principal for the past two years, was chosen again. He will also receive a raise of $100 in salary, making $1,000 a year.

At Parnell, Prof. Wm. H. Allen of Columbia was employed as principal of the schools for the next year to succeed J. P. Cummings. The other teachers at Parnell will be selected Saturday night at a school board meeting.

O. B. Simmons is the new principal of the school at Graham. The other teachers selected at this school are Miss Margaret Collins, grammar; Miss Maud Marquis of Maryville, intermediate deparement; and Miss Stella Davis, the primary department. Mr. Simmons has been principal of the schools at Atherton, Ia., and his home is near Sheridan. Miss Marquis is also a new teacher for Graham.

SUSPENSION WILL BE BRIEF?

Thirty-five Insurance Companies Are Now Writing in This State.

A dispatch from Jefferson City says: Thirty-five fire insurance companies, including the five Missouri stock and twenty-six state mutuals, notified Insurance Superintendent Revelle that they would continue to write policies in this state. Thirty-one of the other foreign companies notified him of suspension at midnight Wednesday night. Some advised him that the suspension was only temporary, the others simply saying they had suspended.

Superintendent Revelle says that no immediate steps for cancellation of licenses will be taken by him, and perhaps none will be unless the suspension should be of unreasonable duration.

There are approximately 5,000 fire insurance agents in Missouri, and it is estimated that of this number there are 4,500 idle today, so far as the insurance business is concerned, because of the action of the companies. The only state is protection to be had in the companies and through the thirty-five odd inter-insurance and reciprocal associations.

SPENT LIFE HERE

MRS. N. A. KAVANAUGH LIVED IN COUNTY 68 YEARS.

DIED THURSDAY NIGHT

Aged Lady Succumbs to Injuries Received Three Years Ago in Corpus Christi, Texas.

Mrs. N. A. Kavanaugh passed away Thursday evening at 7 o'clock at the home of her daughter, Mrs. W. C. Frank, 307 East Seventh street. Mrs. Kavanaugh had been an invalid for three years and three months, but her last illness was of five weeks' duration, during which she suffered greatly.

The funeral services will be held Saturday afternoon at 2:30 o'clock and will be conducted by Rev. Claude J. Miller of the First Christian church. Interment will take place in Miriam cemetery.

The cause of Mrs. Kavanaugh's invalidism was a fall from a porch three years ago, while she was spending the winter at Corpus Christi, Texas, in company with Mr. and Mrs. W. C. Frank. Her hip was broken and she was not able to walk afterward. She was given such unremitting devotion and care by her daughters that her life was made comfortable and happy, and it was only within the last few weeks that she did not seem to take the interest in life that she formerly had and to enjoy the calls of her many friends.

Mrs. Kavanaugh was a member of one of the oldest families in Nodaway county. She was born in New Kent county, Virginia, January 26, 1837, making her past 76 years of age. Her maiden name was Serepta Saunders, daughter of James and Elizabeth Carr Saunders. When she was nine years of age, Mrs. Kavanaugh's parents moved from Virginia to Nodaway county, locating on a farm five miles south of Maryville, where their children grew to manhood and womanhood, only two of whom are now living, a twin brother and sister, Stratford Saunders of Skidmore and Mrs. Susie Case of Colorado, Nebraska. The other children died in their homes in Maryville several years ago and were Mrs. William Ammons, Mrs. J. M. Still, who was the mother of Mrs. Anderson Craig of this city; Mrs. William Burris, who was the mother of Mrs. Robert Gex and Will A. Burris of near Graham, and now Mrs. Kavanaugh, the subject of this sketch.

In October, 1857, Mrs. Kavanaugh was married to her husband, Nicholas Archer Kavanaugh, whose death occured at their home in his city in 1906. They lived on a farm south of Maryville for several years, but the greater part of their lifevas spent on their farm between Graham and Maitland. Eight children were born to them, four boys and four girls. Twin sons, Paul and Eugene, died in infancy, and another son, Charles, died at the age of fifteen. The living children are Mrs. W. C. Frank of Maryville, James Kavanaugh of Graham, Mrs. F. I. Dunn of Bolckow, Mrs. J. F. Brink of Maryville and Mrs. John J. Tate of Pierre, South Dakota.

Mr. and Mrs. Kavanaugh retired from farm life twenty-two years ago and moved to Maryville to their residence on North Main street, where they lived until Mr. Kavanaugh's death in 1906, and since that time Mrs. Kavanaugh has lived with her children.

Mrs. Kavanaugh was a cousin of Mr. George S. Baker and Mrs. James H. Saunders of this city.

For fifty years Mrs. Kavanaugh had been a follower of Christ and a member of the Christian church. Her constant and cheerful practice of truths she learned through many years of joy and trial rendered her a woman of great charm to all who met her. She was kind, loving and faithful in every relation of life and she will be sadly missed, first by those of her own home, then by many friends among young and old.

Mr. Cummins to Speak.

A large number from Maryville will go to St. Joseph Sunday to attend the joint initiation of the Maryville and St. Joseph councils of Knights of Columbus. About twenty-four from here will take the degree work and they will be accompanied by a number of the members of the council of the city. After the initiation Adoux in that city and Attorney T. A. [illegible] will speak on the subject of "The Rural Knights of Columbus."

FINED $50 AND COSTS.

James Markwell Received Heavy Fine —Other Cases Up in City Police Court.

In the case of James Markwell, charged with giving whisky to Charles Bramblem, a city prisoner, and who is barred from the saloons here, Mayor Arthur Robey fined him $50 and costs. Markwell was represented by Charles McCaffrey, and the city by W. E. Wiles. It is said that Markwell will take an appeal.

Two other men up in city police court Friday morning for drunkenness were Thomas Ross and John Hays. They both pleaded guilty and were fined $20 and costs apiece.

Ross and Hays are also charged with shoplifting. Two pairs of pants, valued at $10, were taken from Corwin-Murrin clothing store, by these men, it is alleged. Their trial will come up Monday. Hays is an old offender here, having been arrested several times before.

CHANGES IN CONSERVATORY.

Miss Alice Porter of Winchester, Ky., and Miss Marie Jones, New Teachers for Music School.

Director P. O. Landon, of the Maryville Conservatory of Music, has announced a change in the faculty of the school to take effect June first. Miss Alice Porter of Winchester, Ky., will be first assistant instructor in piano, to take the place of Miss Gayle Jackson, who has held that position since the first of January. Miss Jackson has discharged her duties in a satisfactory manner, but she only came to the local school to finish out the winter term.

Miss Porter is a graduate of the New England Conservatory of Music at Boston, and has had considerable experience as an instructor of piano. The voice department of the Conservatory will again be in charge of Miss Marie A. Jones of this city. Miss Jones was formerly connected with the Conservatory, but she has been studying for the past year with Mrs. Ella Van Huff of Kansas City. Miss Sarah McMaster, who has had charge of the primary department for the past year and a half, will continue in that work.

GUILFORD NEWS ITEMS.

Wolves or dogs have been getting into the sheep folds of J. V. Pugh and Frank Speers for several nights and have succeeded in taking about a dozen of the best. Davis Brothers' hounds of Guilford are being used in a chase that is being conducted between Guilford and King City. Several wolves were killed in a big chase in the spring, but it is thought there are a good many left and everything will be done to drive them out.

Farmers down in the southeast corner of Washington township, which is also the southeast corner of Nodaway county, are very much interested in the revival of the proposed project of an interurban line from St. Joseph to Stanberry. If the thing goes through the same right-of-way will be used that was surveyed through that section several years ago, over some ten miles of Nodaway territory. The line would enter on the land of E. G. Stuart, pass on northeast to and leave the county at the farm of Henry Richards, then on northeast to Stanberry. This stretch of country is isolated for about ten miles from any railroad facilities, between King City and Guilford, and would be a wonderful help to the people of that section. There seems a strong possibility that the line will be built. The commerce club of St. Joseph and other St. Joseph people are interesting eastern capital in pushing the matter.

BEST $5 HE EVER SPENT.

Bristol, Pa., Man Says So in This Letter.

Months of suffering an anxiety over his condition caused Mr. A. L. Kennedy of Bristol, Pa., to write this letter. He says: "Grippe and a bad cough caused me much suffering and worry for five long months, but that is all over now for I have taken Vinol and am perfectly well. I took five bottles and it was the best five dollars I ever spent."

In health one cannot realize how depressed a person may become after trying one remedy after another for such a condition as Mr. Kennedy was in, without benefit, or what a relief it is to find help and be restored to health and strength.

It is the combined action of the medicinal curative element of cods' livers without the greasy oil, aided by the blood-making and strength-creating properties of tonic iron, that makes Vinol so efficient in overcoming chronic coughs, colds and bronchitis at the same time building up the weakened run-down system.

We guarantee Vinol to give you perfect satisfaction.—Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of double strength othine—and a few apples from your druggist and you how easily it is to as should show the homely freckles and rid yourself of all complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under the money back if it fails to remove freckles.

FASCINATING HAIR.

Easy to Stop Hair Falling Out, and Dandruff Also.

No one doubts that it is the duty of every woman to look as charming as possible. Every woman knows why she wants to be beautiful and attractive.

A woman with scant hair, dull and lifeless, has lost half her charm. How many times have we heard the expression "the crowning glory of a woman is her hair."

Nowadays, thanks to Parisian Sage, almost every woman can have hair so radiant and so glorious that it attracts, fascinates and compels admiration.

Parisian Sage, the scientific and ideal hair rejuvenator and tonic, will cause hair to grow. It will turn harsh, withered hair into lustrous and bewitching luxuriant hair in a few days.

It is a most delightful hair dressing that kills the dandruff germs, stops falling hair, and eradicates dandruff in two weeks, or your money back.

A large 50 cent bottle is sold by the Koch Pharmacy and dealers everywhere on the money back plan.—Advertisement.

Sooner or later you will buy a De Laval

The savings made by a DE LAVAL Cream Separator

A De Laval will save enough over any gravity setting system in quantity and quality of cream, sweet skim-milk, labor, time and trouble to pay for itself every six months.

A De Laval will save enough over any other separator in closer skimming, in running heavier and smoother cream, skimming cool milk, greater capacity, easier cleaning, easier running and fewer repairs to pay for itself every year.

An up-to-date De Laval saves enough over De Laval machines of five, ten, fifteen or twenty years ago in closer separation under all conditions, greater capacity, easier running and greater mechanical perfection to pay for itself every two years.

Remember that these are not mere claims. We are always willing to let you try out a De Laval for yourself on your own place.

PRESIDENT WILSON DONS WAR PAINT

Campaigns New Jersey to Wrest Politics From Machine Control.

Newark, N. J., May 2.—President Wilson battled hard in two speeches at Newark and Elizabeth to wrest New Jersey politics from what he termed a resumption of control by "Jim Nugent and the old political machine."

Great crowds made frequent interruptions of applause and demonstrations of approval greeted the president when he put on his "war paint," as he described it, and campaigned in earnest to have the power of drawing juries taken from the sheriffs and placed in the hands of nonpartisan commissions. He also pleaded for the calling of a constitutional convention and pointed out that it no longer was regarded as a radical procedure to change constitutions.

His two speeches were filled with satirical characterization of what he called the "old gang in New Jersey," but he made it clear that his fight for apparently a local matter was made for the rank and file of the nation.

THREE SHOT IN A FIGHT

Quarrel Over Strip of Ground Ends in Triple Tragedy.

Kirksville, Mo., May 2.—Noah Stroup was shot and killed and Everett Skinner fatally wounded by Wallace Demory, who then killed himself, at Danforth, eight miles west of here. The trouble was the result of a quarrel over a strip of ground, to which Demory and Stroup claimed ownership. Skinner was a friend of Stroup. All three were middle-aged men.

Troops Land at Guaymas.

Nogales, Ariz., May 2.—Between 1,500 and 2,000 federals were landed at Guaymas from transports. This, it is believed, insures the port from capture by the constitutionalists.

A BIT OF ADVICE.

First, Don't Delay—Second, Don't Experiment.

If you suffer from backache; headacres or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Maryville residents desire more convincing proof of their effectiveness than a statement of a Maryville citizen who has used them and willingly testifies to their worth?

Mrs. James Fisher, 804 East Fifth street, Maryville, Mo., says: "In 1911 I began using Doan's Kidney Pills, which I got at Love & Gaugh's drug store, and they gave me relief from backache and pains in my sides. I recommend this remedy and I can say that it is reliable."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—Advertisement.

Try one application of ZEMO on the baby, and see the poor little fellow jubilate with his toes, and chuckle. If he could only talk he'd thank you for the heavenly relief. ZEMO is guaranteed to stop itching immediately or money is refunded.

For rash, tetter, and all the skin tortures that babies suffer, ZEMO has no equal.

For the skin troubles that men and women suffer, for all the itching, raw, scorching eczema, dandruff, inflamed or reddened skin, it has proven its astonishing results in thousands of cases. The immediate relief it gives is almost heavenly. ZEMO is a clean, antiseptic solution applied to the skin; no oily paste or ointment.

"My feet would scald and crack into the blood. Could hardly walk. Tried one bottle of ZEMO, 25c, and it cured them." F. W. Flowers, jeweler, Oakdale, Va.

ZEMO is sold in 25s sealed bottles and guaranteed in Marville by Love & Gaugh, druggists.—Advertisement.

CALIFORNIA LAND BILL UP FOR FINAL ACTION

Democrats to Make Stand for National Administration.

Sacramento, Cal., May 2.—It is the understanding on all sides that the anti-alien land bill will come to a final vote in the senate today, the Democrats having been granted sufficient time to study the Webb redraft of the measure.

The brief debate on the motion to postpone disclosed the fact that the Democrats have hearkened to the advice from Washington as delivered by Secretary of State Bryan and will make a formal stand in support of the national administration.

No apprehension was aroused by the warning against the Webb bill telegraphed to Governor Johnson by President Wilson. It is the belief of both Governor Johnson and Attorney General Webb that regardless of how the act was worded it probably would involve an appeal to the courts, as suggested by President Wilson.

Alaskan Bill Vetoed.

Juneau, May 2.—Governor Walter E. Clark vetoed the anti-alien fishing bill, aimed at Japanese fishermen, just before the Alaska legislature adjourned sine die. The bill passed the house unanimously, but when the governor's message was received there was no attempt to pass it over his veto.

OFFICER SHOOTS FOOTPAD

Second Highwayman Captured After Running Fight at Omaha.

Omaha, May 2.—Two men, identified by their victims as holdup men, are in the custody of the police, one of them badly wounded in the right leg, where he was shot by Patrolman Leroy Wade, early this morning, near Twentieth and Douglas streets. One of the men is George Floth and the other is identified as Marvin DeLor, a man with a local police record and who was recently released from the Iowa penitentiary at Anamosa. DeLor is the man who was wounded.

GOLF BALLS WORSE THAN HIGHBALLS

Wilmington, Del., May 2.—Rodney Warren, a twelve-year-old caddie, who heard players at the Wilmington Country club discussing "highballs," gathered the idea that the drink was in some way connected with the golf ball. He cut open one of the balls and found it filled with a liquid, which he drank. A stomach pump saved his life. The doctor found the liquid in the ball was highly impregnated with arsenic.

Supposed Dead Man Returns to Topeka

Topeka, May 2.—After an absence of more than seven years, during which time the courts declared him legally dead and gave his wife judgment for a $3,000 insurance policy on his life, W. H. Caldwell came to Topeka to testify for the insurance company in an application for a rehearing of the case.

More Insurance Companies to Stay.

Jefferson City, Mo., May 2.—Superintendent of Insurance Revelle announced thirty-eight foreign and domestic fire insurance companies have notified him that they would not leave the state on account of the Orr insurance law. Twenty-six mutual concerns also have agreed not to leave the state.

MAN GETS A NEW STOMACH.

After Trying to Enjoy Life for Years With a No Good Stomach He Gets Wise.

"I was bothered for years with stomach trouble and gastritis. Food laid like lead in my stomach and fermented, forming gas. This caused a pressure on my heart, so that I choked and gasped for breath. I thought my time had come. MI-O-NA cured me after I had doctored without success."—Wm. V. Mathews, Bloomington, Ind.

Call it Gastritis, Catarrh of the Stomach, Indigestion or Dyspepsia; it matters not. MI-O-NA Stomach Tablets will drive out all the misery and give you practically a new, clean, willing-to-work stomach or the Orear-Henry Drug Co. will refund the price.

That's honorable, isn't it? So if you want to get rid of your sour, gassy, heavy, stupid, irresponsible stomach get a 50-cent box today.—Advertisement.

Obituary.

Harley L. Curry was born October 10, 1892, near Gaynor City, Mo., where he lived with his parents until 9 years old, when they moved to Allendale, Mo., where he grew to young manhood. He attended the Grant City high school and was graduated with the class of 1911. He was converted and united with the Methodist Episcopal church in Sheridan, Mo., in 1906, living faithfully in its fellowship until his death. He was taken with the measles in May, 1911, from which he contracted tuberculosis. In September, 1911, he went to the sanatorium at Colorado Springs, Denver and other points in the West, where he remained about a year and one-half in an effort to arrest this disease. In December, 1912, his parents moved to Fort Morgan, Colo., where they hoped he might regain his health, but all to no avail. He steadily grew worse, passing away April 24, 1913, being 20 years, 6 months and 14 days of age.

Harley was a good boy, of loving disposition, respectful and obedient to his parents, a good brother and a faithful friend. He was a Christian young man of high ideals and ambitious to be of some account in the world. He bore his affliction bravely and was of hope to the end. A few days ago he said that heaven seemed near, and he passed away in the full assurance of the Christian's hope of rest and love. He leaves father and mother, Mr. and Mrs. L. W. Curry; two sisters, Mrs. C. C. [illegible]er of Gaynor City, Mo., and Mrs. R. F. Scott of Arcadia, Neb., their families, other relatives and a host of friends to mourn their loss, to remember his love and friendship and live in the hope of meeting him again.

His only brother Charley preceded him to the heavenly home in 1899, being 17 years of age.

Funeral services were held Sunday by Reverend Smith at the M. E. church at Gaynor and interment made in the New Hope cemetery.

In memory of our dear brother:

Put the flowers in the window
So that I may see them there,
For 'tis but my form that's resting
In the grave you tend with care.
For my spirit often lingers,
In the home where now you stay,
And I visit not the graveyard,
Where there's nothing left but clay.
So I whisper, put the flowers
In the window of your room;
There I can inhale their fragrance,
As the buds in beauty bloom.
As you pick the earthly blossoms,
So I pluck them here for you—
And though yours may fade and wither
Mine retain their brilliant hue.
Then when you shall come to join me
In my home so bright and fair,
You will find the flowers blooming
And we all can tend them there.

Card of Thanks.

We take this method of expressing our heartfelt thanks for the kindness and sympathy of our friends in our sad bereavement of our son and brother Harley, and also for the beautiful flowers from Gaynor, Grant City, Mo., and Fort Morgan, Colo.

Mr. and Mrs. L. W. Curry
Mr. and Mrs. R. F. Scott
Mr. and Mrs. C. C. Cooper.

Card of Thanks.

We wish to thank our many friends and also express our sincere regards to them for their services rendered in caring for our beloved husband and father through his illness and death. We also wish to thank each and every one who gave flowers or other tokens of love and sympathy to cheer us in our bereavement. Very sincerely,

MRS. WM. McCOMB and FAMILY.

Killed an Otter.

T. F. Panye of Parnell killed an otter one day last week. The animal was taken to St. Joseph, where it will be mounted. The Parnell Sentinel had the following about Mr. Payne killing the otter:

On Wednesday night he heard his dogs barking near his place on Platte river, so he got up and went where they were and discovered they had an otter cornered. He killed the animal by kicking it in the head. This is the first otter seen in northwest Missouri for over fourteen years, and it is supposed it wandered from the north. The animal is about two-thirds grown, with fur of a dark brown and of excellent quality.

TOMATOES

Plant plenty of tomatoes, the fruit that you can depend on every year. Because we sell more tomato plants each year is one very good reason why you should plant Engelmann's tomato plants. Through actual tests and selections we furnish only varieties that are money makers to the grower under local climatic conditions. Because we raise and sell large quantities of tomato plants is why we can sell Englemann's tomato plants at 15c per dozen for strong transplanted plants, and 25c per dozen for potted plants. All vegetable plants in season.
